

P-Long

**The Ultimate Guide For Your
Manhood's Health**

**By: Board-Certified Urologist,
Dr. Judson Brandeis**

P-LONG EXPLAINED

WHAT IS IT?

P-Long is the first and only clinically proven protocol to naturally increase the size of your manhood without surgery, cosmetic fillers, or the risk of negative side effects.

The P-Long Protocol is a combination therapy created by Dr. Judson Brandeis and the pioneers in men's sexual health.

THE PROTOCOL UTILIZES:

- Platelet Rich Plasma Injections
- AFFIRM Nitric Oxide Booster
- RestoreX Traction Device
- Dr. Joel Kaplan Vacuum Device

Based on the P-Long Study, an institutional review board-approved study, P-Long patients can expect to gain almost a full inch in penile length in addition to half an inch in girth.

WILL IT WORK FOR YOU?

P-Long is a fantastic option for most men considering penile enlargement with the exception of men who have previously undergone penile augmentation surgery.

Plong

Maximize Length

Patients can expect to increase the length of their manhood by almost a full inch.

Increase Girth

P-Long patients can expect to increase the girth of their manhood by up to half an inch.

Safe & Surgery-Free

Enjoy long-term results without the risk of painful, risky or expensive surgeries.

P-Long was created so that men could increase the size and function of their manhood without expensive surgeries, which often result in dangerous side effects and unwanted results.

Until the P-Long Study was conducted, there was no clinically supported option proven to increase both the length and girth of a man's penis. Unknowingly, thousands of men across the country invested tens of thousands of dollars for treatments they believed would work, which ultimately created more negative results than positive ones.

These options include:

- Suspensory Ligament Division
- Penuma Surgical Implant
- Cosmetic Dermal Fillers

We had to do better!

For the past two years, the pioneers in men's sexual health have been trying to solve a problem that has frustrated men for thousands of years...

"How to safely increase the length, girth, and function of a healthy man's penis."

To address this desire, we created the P-Long Study:

The P-Long Study is an institutional review board-approved study listed by the NIH at clinicaltrials.com and accepted for oral presentation by the International Society of Sexual Medicine and the Sexual Medicine Society of North America.

P-LONG STUDY

The study consisted of a control group of 32 men who utilized a combination therapy created in conjunction with the pioneers in men's sexual health.

1

AFFIRM Nitric Oxide Booster

AFFIRM is a daily, circulation-boosting supplement that supports a man's bedroom performance and health. Created by Board-Certified Urologist, Dr. Judson Brandeis.

2

RestoreX Traction Device

The RestoreX Penile Traction Therapy Device is used for the treatment of Peyronie's Disease and to correct lost penile length resulting from urological surgeries and treatments or chronic disease.

3

Dr Joel Kaplan Vacuum Device

Dr. Joel Kaplan offers quality male enhancement products. Dr. Kaplan's pumps and supplements have *helped men increase penis size and stamina*, since 1991.

THE RESULTS

100%

of men in the study improved the length of their manhood by almost 1" and girth by half an 1".

0%

of P-Long Study participants experienced negative side-effects or complications after receiving treatment.

32

P-Long patients have expressed a significant increase in their overall erectile function after treatment completion.

WHY CHOOSE P-LONG

Until the P-Long Study was conducted, there was no clinically supported option proven to increase both the length and girth of a man's penis. Unknowingly, thousands of men across the country invested tens of thousands of dollars for treatments they believed would work, which ultimately created more negative results than positive ones.

These options include:

- Suspensory Ligament Division
- Penuma Surgical Implant
- Cosmetic Dermal Fillers

Suspensory Ligament Division

This disastrous surgery changes the angle of your manhood, which results in the development of scar tissue that shrinks your manhood.

Penuma Surgical Implant

Although this seemed promising at first, dozens of men have had their permanent implants removed due to infection, pain, or dissatisfaction, which reduces length.

Cosmetic Dermal Fillers

These temporary fillers are expensive, don't increase length, and results only last between 1-2 years. Resulting in a lumpy, bumpy manhood.

YOUR MANHOOD IS IN GOOD HANDS

Because the P-Long protocol is a natural combination therapy, there are no associated risks of scar tissue or infection.

Just real results!

Totally Safe

P-Long patients can enjoy natural, long-term, risk-free results without the danger of infection.

Increased Length

Add up to a full inch in natural length that lasts forever without surgery or harmful side-effects.

Increased Girth

Naturally expand the girth of your manhood by up to half an inch and avoid temporary fillers.

Better Functionality

In addition to making you longer and wider, P-Long may also boost your overall functionality.

MEET THE PIONEERS

Dr. Judson Brandeis

P-LONG FOUNDER

Judson Brandeis, MD is an award-winning board-certified urologist and sexual medicine expert with over 25 years of experience. Dr. Brandeis is also a clinical researcher, physician educator, caring clinician, and surgeon.

Dr. Brandeis recently authored the ultimate men's health book, *The 21st Century Man: Advice from 50 Top Doctors and Men's Health Experts to Help You Feel Great, Look Good and Have Better Sex*.

Dr. Judson Brandeis is honored to have been voted Top Urologist in the SF Bay Area by SF Magazine from 2014 to 2020. In February 2019, he opened his comfortable office in San Ramon, where he focuses his practice entirely on Men's Sexual Health and Rejuvenation.

Dr. Brandeis created and directed 5 IRB-approved clinical research protocols in sexual medicine, two of which are still active.

A YouTube video thumbnail for a video titled "The P-Long Study: A Groundbreaking Discovery In Men's Health". The thumbnail features a purple and white background with a large, stylized "P-Long STUDY" title. Below the title, text reads: "An institutional review board-approved study. Listed by the NIH at clinicaltrials.com. Accepted for oral presentation by the ISSM & SMSNA". A red YouTube play button icon is centered. At the bottom left, it says "P-LONG.com Created By: Board-Certified Urologist, Dr. Judson Brandeis". On the right side, there is a photo of Dr. Judson Brandeis, a smiling man in a blue patterned shirt, gesturing with his hands. In the top right corner, there are icons for "Watch later" and "Share". In the bottom left corner, there is a "Watch on YouTube" button.

The Dr. Joel Kaplan Company

The Dr. Joel Kaplan Company is the #1 most recommended brand by doctors for sexual health and wellness products. Dr. Joel Kaplan, a Ph.D from Saybrook Institute, is a pioneer of men's products for sexual enhancement.

Dr. Kaplan spent his career developing proven techniques and devices for bettering the lives of men.

Today, The Dr. Joel Kaplan Company is at the forefront of medical technology in order to continue his mission of improving men's sexual health around the world.

RestoreX: By PathRight Medical

RestoreX is the only traction device invented by a Board Certified Urologist specializing in Men's Sexual Health and Peyronie's disease.

PathRight Medical was formed in 2015 to meaningfully improve the lives of men with Peyronie's disease or those with side effects associated with urological surgeries or chronic disease. To achieve this mission, PathRight Medical developed RestoreX in cooperation with Mayo Clinic.

RestoreX was invented by a specialist in Peyronie's Disease (PD), Male Infertility and Erectile Dysfunction (ED) who has treated hundreds of men with PD and ED and grew frustrated with the first-generation penile traction therapy (PTT) devices.

After three years of development, testing, and collaboration with Mayo Clinic, the result is RestoreX. The RestoreX device provides men with a clinically tested, easy-to-use solution for treating the curvature and lost length resulting from Peyronie's disease and preventing or restoring lost penile length as a result of surgery, treatments, or disease.
